The next evolution of legal finance.

Establishing in the finance industry requires time, new ways of thinking, and doing. As the Principal of Baker Street Funding, Daniel DiGaimo, CEO and President, brings over 16 years of financial services to the firm. Mr. Digaimo has been recognized for his ideas, innovation within the finance industry, and business success throughout the first decade. He started his career as part of a wealth management team at Morgan Stanley that managed over 1 billion dollars of client assets. He then moved to Merrill Lynch, where he ran his own wealth management team. Our CEO and President also acted as an advisor and director of investments to early and mid-stage companies helping them raise capital and acquire competitors while starting his company Baker Street Funding. Daniel Digaimo, being the driving force in the development of the organization, is helping navigate the company through a prolonged period of growth, managing all critical decisions for the company's growing success. Mr. Digaimo has been interviewed by Bloomberg, Law 360, Value Walk, among other large organizations.

Mr. Digaimo has also appeared publicly speaking at the annual Lawyers For Civil Justice (LC) conference in Washington, DC. Mr. Digaimo holds a minor in Law and a BA in Finance from PACE University. We're proud of what he has achieved so far, and there's so much more ahead.
